GROWTH DISORDERS 2025: CURRENT CHALLENGES, SOLUTIONS AND RECOMMENDATIONS

VIDEO INTERVIEW

Leadership in Paediatric Endocrinology: Lessons and Guidance

LAUNCH 30 APRIL 2025

MeδEA
Medical Education Academy

Overview

Endocrine science is a challenging, rewarding and wide-ranging medical specialty, with endocrinologists sharing an interest in hormones and biological signalling [Society for Endocrinology]. Leadership skills are of crucial importance in the career of a paediatric endocrinologist. Choice of specialist field, research topics, acquisition of clinical skills, collaborators and publication topics all contribute to a successful career, built on a foundation of extensive clinical expertise in areas of basic science (cell biology, hormone and signalling molecules) and clinical research on child health and development (children with chronic diseases, psycho-social dimensions). Sharing the life and career journey of eminent clinicians and scientists can provide valuable insight into career pathways and training opportunities, and this interview will provide advice from a successful leader in the field, with a long career and an enviable publication record.

Learning Objectives

After watching this video interview, participants will be able to:

1. Discuss the training available and the choice of careers open to paediatric endocrinologists
2. Recognise effective leadership and mentorship traits

Target Audience

Paediatricians working in growth disorder management and those in general practice; specialist growth disorder nurses.

Language

English with voice-over into Spanish and Korean.

Faculty

Wieland Kiess

Professor Emeritus for Paediatrics
University of Leipzig Medical Centre
Leipzig, Germany

Martin O. Savage

Emeritus Professor of Paediatric Endocrinology
William Harvey Research Institute
Barts and the London School of
Medicine and Dentistry
Queen Mary, University of London, UK
